COMPLIANCE, PROTECTION, PEACE OF MIND

# Online training

## The benefits

Our one-on-one tutor led e-learning courses are packed with all the information your employees need to keep your business safe and compliant and they are always up to date, all this along with the following benefits:

## WE OFFER E-LEARNING TRAINING THAT EMPLOYEES ACTUALLY ENJOY

### Virtual Learning

Live pictures, animated graphics and the personality of the presenter form part of a very effective virtual learning environment.

### Better Communication

Video eLearning achieves better communication through the power of face-to-face eye contact that builds trust, triggers emotion and captures a memorable tone and style while communicating the essence of the learning content.

### Effective

These courses meet all statutory training requirements and are easy to administer using an online control panel. Available at a fraction of the cost you would expect, this online training has the added bonus of a minimal loss of productivity through being efficient and flexible.

# E-Learning training courses we have available

## Asbestos Awareness

 Duration: 65 mins

As well as informing you about the risks of working with asbestos, the course will deliver a lot more information about: Recognising asbestos, where it's used, minimising the risks and the legislation about working with asbestos.

## Basic Legionella Management

 Duration: 75 mins

This course covers all the essential facts necessary for any duty holder to adequately understand their responsibilities in relation to Legionella management. The training aims to increase awareness of the dangers associated with Legionella, what scenarios lead to its proliferation, how to comply with the regulations, risk management and how to implement a suitable control scheme.

## Control of Substances Hazardous to Health (COSHH)

 Duration: 125 mins

This course covers what you need to know about the Control of Substances Hazardous to Health. It's aimed at anyone who is exposed to Substances Hazardous to Health at work, as well as line managers with responsibility for such people.

## Noise Awareness

 Duration: 125 mins

This course aims to empower the duty holder with the knowledge and understanding of the risks associated with excessive noise exposure. On completion you will be aware of the dangers associated with excessive noise levels in the workplace and its effects on hearing loss, understand how to interpret noise survey data, be aware of how to comply with the regulations and understand what measures need to be taken to protect your team.
